

“Diabetes 360: From Prevention to Personalized Treatment” Congress

Qatar National
Convention Center
(QNCC)

FRI - SAT
20 - 21 NOV 2026

The IDF Diabetes Atlas (2025) reports that 1 in 9 adults has diabetes, with over 40% unaware of their condition.

This congress brings together experts to share the latest advances in diabetes research, technology, and treatment.

Overall, Congress Objectives

- Learn global diabetes challenges: Understand how diabetes is affecting people worldwide.
- Focus on prevention: Explore ways to stop diabetes early through diet, exercise, and awareness.
- Support mental health: Recognize the role of stress, depression, and anxiety in diabetes care.
- Empower patients: Encourage self-care, education, and community involvement.
- Improve treatment: Review better management of diabetes and related conditions like heart and kidney disease.
- Use technology: Discover how apps, wearables, genetics, and AI can personalize care.
- Work together globally: Share knowledge and best practices across countries.
